### Another "Peep."

Alice Ward, the athletic daughter of Dr. John Ward, of Coney Island, N. Y., is not terrified at the sight of a man. The barking of the dog at her home aroused herself and mother early Wednesday morning. Alice raised the shade at her window and saw the dark outlines of a man pressed against the window. The young woman is athletic and holds the swimming championship for Brooklyn and suburbs. She picked up a cane, and tapping upon the window threatened the fellow. He slunk away, and before she could reach a revolver which lay upon her dressing case he had disappeared. Miss Alice raised the window and fired several shots in the direction which the man had taken. The noise attracted Policeman Taczynski and he ran after the man, but could not overtake him. The man is supposed to have been the one who has been alarming the women of the town by peeping into their windows.

The entire island was scoured by Chief McKane's detectives and officers, but the mysterious stranger, who is supposed to be an escaped lunatic who has wandered from Flatbush, could not be found. A special detail of men in citizens' clothes was ordered out at night by the Chief and told to apprehend the fellow should he again appear and to arrest all strangers found roaming the beach at an unreasonable hour who might be unable to give a strict account of themselves. The description of the man the police are looking for tallies with that of a "peeper" seen by Mrs. M. F. Murphy, wife of Police Sergeant Murphy, with the intruder who took possession of the Simpson household Sunday, and a strange man whom Kate Kearney, the servant of Postmaster Albert Chambers, frightened from her kitchen window late Monday night. Mrs. William Simpson, who is an invalid, has not yet recovered from the shock incident upon the visit of the man, when she and her child attendant, the only persons in the house, were compelled to make themselves involuntary prisoners until the arrival of her husband. The visit of the man has been confined to the more thickly populated section of the beach, but Dr. Ward's cottage is at West Brighton, about half way to Norton's Point, in a sparsely settled locality, where the nearest house is a quarter of a mile distant.

THE DAUGHTER OF GEORGE IV.—A reporter visited the Camberwell Workhouse in England on Wednesday and saw Caroline Matilda Gueph, an inmate of the common ward, who claims to be the daughter of George IV. He found her perfectly collected and even vigorous in mind, although her bodily health is fast failing. From her he obtained the following story of her life: She declared that she was born on January 16, 1816, four years before the accession of George IV. She had seen the certificate of her birth, giving the name of George the King as her father. She was unaware of the meaning of the word regent and did not know her mother's surname. There is no doubt that her mother was a German and died during her infancy at Norfolk. She was adopted by the people where she lived and remained with them until she was 14 years old, when she was taken to London. In her 16th year she was visited by a fine gentleman, whom her friends said was the King. The gentleman kissed her, and said he was her father. Her foster parents subsequently died, and she was left uncared for. She said she had written to the Queen, the Prince of Wales and the Duke of Cambridge, informing them of her kinship and claiming recognition and support. Her letters were not answered, though nobody denied her relationship to the royal family. Once one of the daughters of the Prince of Wales called upon her and questioned her closely. When departing she left a small amount of money. Prince Albert Victor, who accompanied his sister, urged her to leave £100, but she declined to do so. The old lady insists that she is the legitimate daughter of the King, and is indignant at her treatment by his descendants.

## MEDICINAL.

Its peculiar efficacy is due as much to the process and skill in compounding as to the ingredients themselves. Take it in time. It checks diseases in the outset, or if they be advanced will prove a potent cure.

### No Home should be Without It.

It takes the place of a doctor and costly prescriptions. All who lead sedentary lives will find it the best preventive of and cure for Indigestion, Constipation, Headache, Biliousness, Piles and Mental Depression. No loss of time, no interference with business while taking. For children it is most in demand and harmless. No danger from exposure after taking. Cures Colic, Diarrhea, Bowel Complaints, Feverishness and Feverish Colds. Invalids and delicate persons will find it the mildest, most palatable and most effective. A little taken at night insures refreshing sleep and a natural evacuation of the bowels. The appetite, cleanses the stomach and weakens the brain.

A PHYSICIAN'S OPINION.  
"I have been practicing medicine for twenty years and have never been able to put up a vegetable compound that would, like Simmons' Liver Regulator, promptly and effectively move the Liver to action, and at the same time aid in the evacuation of the digestive and assimilative powers of the system."  
L. M. HAYES, M.D., Washington, Ark.  
Marks of Genuine.—Look for the Trade-Mark on front of Wrapper, and the Real Signature of J. H. Zeffin & Co., Inc. on the side. There is no other.

## CORSETS.

Down to a fine point—that's where the making of corsets has been brought to. Kabo for the "bones"—it can't break or kink.

Loops of corset lace instead of metal eyelets—they can't rust or cut the laces.

The Ball Corset for ease and comfort; the Kabo Corset for unyielding strength. Each is the best of its kind. If you don't think so, after wearing for two or three weeks, return it to us and get your money back.

## BRISTOL, TENNESSEE.

### The Progressive South

Where John H. ISMAN, President of the Richmond Terminal, says the next large development is to be in the South is the favored spot of the whole United States; and is the great field for immigration when we can get it, and the place for happy and comfortable homes. I expect the next large development to be in the Bristol district—Bristol and East Tennessee section, which has practically the same natural advantages as Birmingham, but which have never been worked up. This section will grow rapidly within the next few years. The railroad facilities are good now, and are being improved all the time.

### BRISTOL, TENN.

Is in a country richer in coal and iron than any single State in America. It is a solid city, backed by unlimited resources in great variety, and is being pushed to the fore by a well-organized, systematically-working Chamber of Commerce. The outlook is favorable for Bristol to become the Pittsburgh of the South. Address: CHAMBER OF COMMERCE.
